TRIP OVERVIEW

Everest Base Camp Trekking is one of the wonders of the world, besides the tallest peaks on this planet earth. **Mount Everest** stands majestically at an elevation of 8,848.86 meters, or

29,031 feet recorded as the **world's highest peak**, located around the high **Khumbu Valley**, North Mid-East of Nepal. It straddles the boundary between Nepal and Tibet, China, where the North Face or Col is across the borders. This trek can be a perfect adventure for women of all ages whether you are travelling solo or with your fellow female explorers. For those seeking an empowering experience, booking a **female trekking guide in Nepal** or a women trekking guide agency can provide a safe and inspiring environment to push your limits and enjoy the beauty of the trek.

The south face of Mt. Everest base camp is more popular than the other sides in Tibet. The **trek to Everest Base Camp** will be an enjoyable, and exciting adventure where views of giant peaks follow you all along the walks from the start to the end at Lukla.

Trekkers will be amazed at the scenic dramatic landscapes from dense forest to arid and arctic zone terrains. Everest base camp trekking is the most exciting adventure, where trekkers will experience the true mountain wilderness. An exciting, short flight lands at **Tenzing Hillary Airport** in Lukla where most adventures around the high Khumbu and Everest region begin and complete. The walk follows the gradual main trail through several **Sherpa villages** lined with prayer monuments. The walk then enters the *Sagarmatha National Park* treasures that include exotic flora, and fauna, as well as the world's famous highest peaks. As the walk advances, we then leave the Dudh Koshi River Valley with climb to the famed **Namche Bazaar**.

Namche Bazaar, the hub and capital of the **Khumbu Sherpas**, is a popular place to have a rest day to allow for proper acclimatization. The adventure continues heading higher, walking on a scenic trail amidst beautiful coniferous and deciduous forest to reach Tengboche.

A picturesque location with a majestic monastery surrounded by a series of snow peaks with **views of Mt. Everest**. Slowly, the walk heads down and up leaving the tree lines behind for a wide open to arid country. The trail follows towards **Everest Base Camp** after overnights in the Dingboche and Lobuche settlements where the landscape changes into a rocky moraine as you reach around the glaciated valley to Gorakshep. Gorakshep is located on the midways of Everest base camp and towards high **Kalapathar Hill**. From Gorakshep, the journey continues towards our main goal and highlight of the adventures as you stand beneath the world's highest peaks. You can enjoy the dramatic scenery of arctic-like terrains with remorseless fields of ice, snow, and glaciers. The **massif Khumbu Icefall** tumbles to feed the glaciers, one of the sources of the Dudh Koshi River.

After an exciting moment of great delights, on achieving the major highlights, the next adventure leads you to the top of Kalapathar, the highest spot of the adventure which rewards with a spectacular view. The giant mountain encircles the black rocky ridge of Kalapathar, with close views of Everest, at a mere distance.

On completing the major goals and highlights, we then take a return journey on an alternative route through Pheriche Valley. Then to Namche Bazaar and back to Lukla for the last overnight stop. From Lukla, a sweeping scenic flight brings you to Kathmandu after an overwhelming experience on Everest Base Camp Trekking.
